## Projects

### Front End Developer at MargoHub

MargoHub is one-stop digital logistics marketplace and aggregator, bringing you best-in-class partnerships and services like warehousing, truck booking, air, sea freight, express parcel, and last-mile delivery

### Front End Developer at ATLP (Advance Trade and Logistic Platform)

The official single window for trade in Abu Dhabi. ATLP is used to digitally facilitating trade through sea, land, air, industrial and free zones. Enabling transparency, predictability, simplified procedures and efficiency.

### Front End Developer at North Ladder

North Ladder is an Online Portal which allows you to sell used gadgets at the best possible price and get instant cash for it and then buy it back again(<https://www.northladder.com/ae-en/>).

### Full Stack Developer at DotsErp

Developer on DotsERP, D&D Solutions LLC for Gulf Oil , Pharma Plus, Uniform Express, Ontime etc. DotsErp automates business process and help companies to run the business more efficiently and to gain greater insight to their business activities. DotsErp caters Manufacturing, Trading, Service, Retail, Projects and Healthcare Industries. Main modules are ESS(Employee Self Service), Onboard, Employee Appraisal, Inventory, Time and Attendance management, CRM and Finance.

### Trackmyleadz

trackmyleadz will help the companies to solve the problem of communicating with the customers. Normally communication to the customer over a sales enquiry or service request happen over phone and that is not tracked. When the employee shift changes or if the employee is on leave, it is difficult to track the conversation. In normal CRMs, there is no way the customer interactions are tracked. With the help of the trackmyleadz, the customer engagements are tied to a sales enquiry or service request.

### 99LMS

99LMS, Learning Management System in India helps you to deliver best e-learning solutions. This eLearning Software can be customized to meet your learning needs.

### ALTAS

Time Attendance Management System(ALTAS) is a full featured solution that allows you to have thorough attendance planning, review and control over time management of your organisation. The solution allows improvising of employee time tracking, shift scheduling and reporting.
